

#1540 Sledgehammer Fuel & Induction Cleaning Kit

PART NO. 1540 (6 Kits per case) Sledgehammer Fuel & Induction Cleaning Kit For GDI & PFI Engines

FEATURES:

- Removes carbon soot and varnish deposits
- Cleans valves, injectors, and intake components
- Maintains air flow and fuel flow
- No tool required

Carbon, varnish and oil deposits can cause severe driveability problems, reduce performance and fuel economy.

The SledgeHammer Fuel & Induction Kit is designed to remove these deposits to improve performance, reduce emissions and improve fuel efficiency. Use prior to convertor replacement.
