

Synthetic Oil Stabilizer #3089

The Ultimate Full Synthetic Treatment

- Helps protect against Low-Speed Pre-Ignition by improving oil stability and reducing oil flash off.
- Formulated for all engine oils, and viscosities, including all low viscosity oils.
- Specially designed for GDI and Turbo/Supercharged engines.
- Protects oil film strength and lubricity
- Helps increase fuel economy and reduces friction and wear.
- 32 oz / 946 ml (12 Bottles per case)
- Made in USA

Run-Rite Synthetic Oil Stabilizer contains the latest technology designed to protect the critical properties of engine lubrication. Formulated with high quality base stocks and additives, it reduces oil oxidation and improves the thermal stability. It helps reduce oil consumption and protects against wear.
