

#7410 Headlight Lens Hardcoat

PART NO. 7410 Aerosol Can (12oz/340g) Headlight Lens Hardcoat

FEATURES & BENEFITS:

- Headlight Lens Hardcoat Restores and Protects Headlights
- Renews Appearance & Light Output Performance
- Protects Against Damaging UV Rays
- Air Dries in 2-4 Minutes
- NO UV CURE NEEDED

DIRECTIONS FOR USE:

Shake can well (several minutes).
Start at the top of the lens. Spray a light coating over the entire headlight lens sweeping from side to side. Allow first coat to dry for 1-2 minutes. Next apply a second heavier gloss coat over the lens surface. If the lens appears cloudy, use a heat gun to gently warm the lens and cloudiness will disappear. Wipe spray nozzle off with a clean towel after each use.
